

CLAIM AMENDMENTS

1 1. (currently amended) A long-term urine-collection kit
2 comprising:

3 a large-capacity can having a wide mouth;

4 a small-capacity cup having a rim dimensioned to sit in
5 the mouth;

6 a closable specimen container inside the cup; and

7 a removable cover fittable over the mouth of the can when
8 the cup is sitting in the mouth.

1 2. (original) The urine-collection kit defined in claim
2 1 wherein the cup is elastically deformable.

1 3. (original) The urine-collection kit defined in claim
2 1 wherein the can mouth and cup rim are of circular shape and the
3 rim has an outwardly projecting ridge that can sit atop the can
4 mouth.

4. (canceled)

1 5. (currently amended) The urine-collection kit defined
2 in claim 4 1 wherein the specimen container has a threaded cap.

1 6. (currently amended) The urine-collection kit defined
2 in claim ~~4~~ 1 wherein the cup has a removable cover over its rim,
3 the specimen container being inside the cup under the removable
4 cover of the cup.

1 7. (original) The urine-collection kit defined in claim
2 6 wherein the removable cover of the cup is a tear-off foil.

1 8. (currently amended) The urine-collection kit defined
2 in claim ~~4~~ 1, further comprising
3 an openable bottle holding reagent inside the cup.

1 9. (original) The urine-collection kit defined in claim
2 8 wherein the specimen container has a threaded cap.

1 10. (original) The urine-collection kit defined in
2 claim 9 wherein the openable bottle is inside the specimen con-
3 tainer.

1 11. (original) The urine-collection kit defined in
2 claim 9 wherein the openable bottle is secured to the threaded cap
3 of the specimen container.

1 12. (original) The urine-collection kit defined in
2 claim 1 wherein the can has a capacity of at least about 2 l.

1 13. (original) The urine-collection kit defined in
2 claim 12 wherein the cup has a capacity of at least about 400 ml.
